MAKE AMERICA HEALTHY AGAIN – MAHA

As the nation is experiencing MAHA, locally, WeAreMAC will be hosting a local physician to share with us “Integrative Medicine.”

Integrative medicine combines the naturopathic approach, but will also use conventional medicine if needed. It is an approach to healthcare that combines conventional medical treatments with complementary therapies to address the whole person.

When: July 14th at 7:00 p.m.

Where: Baker Creek Community Church (East entrance)

RESTORATION VS. ALTERATION

Restoration = to normal function

- Example = hip replacement surgery restores function to normal use

Alteration = enhancement

- Example = neurolink, vaccines, genetics – these enhance or alter from original
- This is where science goes beyond health and is a biohack by altering genetics to resist disease

Transhumanists want medicine and technology to keep them from dying. Whereas Christians believe only salvation through Christ Jesus can offer eternal life. How to protect yourself? Don't be fooled by:

- “this is for your health” “this is just medicine” “this is to resist disease, cancer” “vaccines are for your health”

JUST FOR FUN

Ever wonder ... why the sun lightens our hair but darkens our skin?

... why “abbreviated” is such a long word?

... why the person who invests all your money is called a broker?

... why don't sheep shrink when it rains?

... why they are called apartments when they are all stuck together?

... if flying is so safe, why do they call it a terminal?
